

"CONSIDERING OPTUNE LUA™" PATIENT EDUCATION PROGRAM

"Considering Optune Lua" is a program in which Novocure® representatives can provide education to patients with malignant pleural mesothelioma (MPM) who are considering Optune Lua as a treatment option.

What does the Novocure representative do during the program?

- Answer questions about Optune Lua
- Discuss educational and support resources that Novocure provides
- Discuss the process of initiating Optune Lua

How does the program take place?

The Novocure representative, the patient, the patient's caregiver, and often the certified Healthcare Professional (HCP) attend the program either in person or virtually.

- In-person meetings take place in a private area where social distancing guidelines will be adhered to

OR

- Virtual meetings take place over the phone or on video call platforms such as FaceTime® or Zoom

Novocure representatives are Novocure employees and are not acting as Healthcare Professionals. They are trained to serve only as supplementary Optune Lua educators and cannot answer any medical questions.

How does an HCP schedule a "Considering Optune Lua" program for a patient?

1

The HCP will identify a prospective patient with MPM who is interested in the educational session

2

The HCP will contact the Novocure representative, request a 1:1 educational program, and provide the patient's phone number for scheduling purposes

3

The Novocure representative will obtain the patient's signed consent form, either from the HCP or directly from the patient

4

The Novocure representative will call the patient to schedule the educational session

5

The Novocure representative will conduct the training session either in person or virtually with the patient, the patient's caregiver, and often the HCP

HCP

NOVOCURE REPRESENTATIVE

Caution: Federal law restricts this device to sale by or on the order of a physician. Humanitarian Device. Authorized by Federal Law for use in the treatment of adult patients with unresectable, locally advanced or metastatic, malignant pleural mesothelioma concurrently with pemetrexed and platinum-based chemotherapy. The effectiveness of this device for this use has not been demonstrated.

Indications For Use

Optune Lua™ is indicated for the treatment of adult patients with unresectable, locally advanced or metastatic, malignant pleural mesothelioma (MPM) to be used concurrently with pemetrexed and platinum-based chemotherapy.

Important Safety Information

Contraindications

Do not use Optune Lua in patients with implantable electronic medical devices such as pacemakers or implantable automatic defibrillators, etc. Use of Optune Lua together with implanted electronic devices has not been tested and may lead to malfunctioning of the implanted device.

Do not use Optune Lua in patients known to be sensitive to conductive hydrogels. Skin contact with the gel used with Optune Lua may commonly cause increased redness and itching, and may rarely lead to severe allergic reactions such as shock and respiratory failure.

Warnings and Precautions

Optune Lua can only be prescribed by a healthcare provider that has completed the required certification training provided by Novocure®.

The most common (≥10%) adverse events involving Optune Lua in combination with chemotherapy were anemia, constipation, nausea, asthenia, chest pain, fatigue, medical device site reaction, pruritus, and cough.

Other potential adverse effects associated with the use of Optune Lua include: treatment related skin toxicity, allergic reaction to the plaster or to the gel, electrode overheating leading to pain and/or local skin burns, infections at sites of electrode contact with the skin, local warmth and tingling sensation beneath the electrodes, muscle twitching, medical device site reaction and skin breakdown/skin ulcer.

If the patient has an underlying serious skin condition on the chest, evaluate whether this may prevent or temporarily interfere with Optune Lua treatment.

Do not prescribe Optune Lua for patients that are pregnant, you think might be pregnant or are trying to get pregnant, as the safety and effectiveness of Optune Lua in these populations have not been established.

Please see the Optune Lua Instructions For Use (IFU) for complete information regarding the device's indications, contraindications, warnings, and precautions at OptuneLua.com/hcp.
